PRESS RELEASE – Al's gets his ViPRE!

The 12 time Grammy winning engineer/producer (with more on the way for this years Grammy nomination for Natalie Cole's latest), Mr. Al Schmitt, talks about his ViPRE, and he is all smiles! Many thanks for the kind words Al.

"This box brings out the best from all my mics. When I want a tube pre I go to my Vipre, I wish I had a stereo version. I bought one for myself after trying it on several sessions, it's variable impedance allows me to match the mic with the performer and the slow rise time feature can really sweeten up a shrill vocal. I highly recommend this tube pre-amp."

– Al Schmitt Jan, 2003
