

Bart Chiate, Music Mixer on ABC's "Jimmy Kimmel Live" has been using the Glory Comp on such artists as; Leanne Rimes, Bonnie McKee, Avril Lavigne to name a few. He loves the Glory Comp's "Variable Transconductance" on the artists lead vocals "because it's so smooth" you can't hear it working. "I love the headroom and you can hit it pretty hard on input, harder than most compressors".

For more information on Bart Chiate follow the links below.
